

CUE App Firestick Installation Instructions

Please follow the instructions below for installing our app on your Firestick.

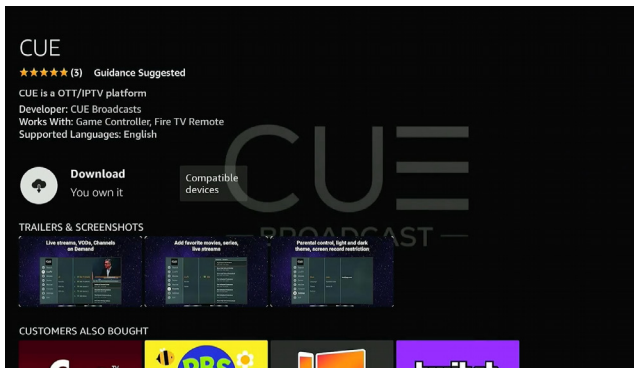

Current customers: When reinstalling the CUE app please make sure to uninstall all previous versions of the CUE app from your device.

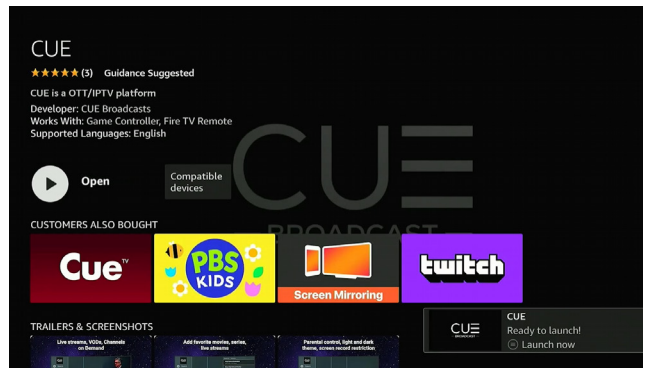

1. From the Firestick home screen, in the search bar enter enter CUE.

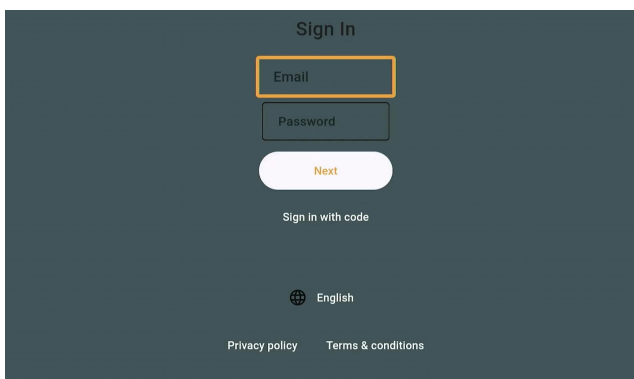

2. In the search results locate the CUE Broadcast logo.

3. Click on CUE Broadcast, when the download icon appears, press the center select button to download the app.

4. When the app download is complete, click open.

5. When the login screen appears enter the email and password associated with your account and click Next. You can also login using a unique 12 digit code which can be found in your welcome email or in your account profile.

Setup is complete. Thank you for choosing CUE Broadcast.
